

Best Practices

One of the ideas bubbling around in the back of my mind is that of publishing a book on best practices in the placement of professional liability lines.

I was crafting this week's Knowledge Nugget and wrapped it up with a Tip, which is the type of thing that would be contained in this potential book.

At the risk of giving away the store, I believe I'll start issuing these best practice tips (I was going to call them "risk tips" then I thought -- that sounds way too familiar, so hats off to IRMI), on a weekly or other frequent basis. I will have to come up with a catchy and easy name for them, so any suggestions are most welcome.

The first one will follow shortly.....
