

## **Environmental Risks - August's Promotion**

Tomorrow's Knowledge Nugget is on contingent BI/PD exposures for real estate risks. I can hardly wait? Aren't you beside yourself with anticipation?!?

Just a reminder to everyone that this month, and this month only - environmental risks get an extra 2.5% commission. Submit or bind in the month of August - new business - and you earn extra free money!

This counts for contractors pollution risks, site pollution, environmental contractors and consultants, and any executive lines coverage for any of these classes. So even if we're just writing EPL on a consultant you have whose E&O doesn't come up till next February - you get 2.5% additional commission.

Send me the business!
