

Knowledge Knuggets Archives

Knowledge Knuggets explore various aspects of professional liability insurance that are important for agents to know. A sampling of these articles are archived on this page for your ease of reference. They are written by me, [Chris Christian](#), a recognized expert in the field who shares technical expertise in industry publications and in educational settings such as [PLUS](#) and [CIC](#) Ruble Seminars.

Knuggets provide valuable insight about critical nuances of coverage for PL professionals. Some topics are covered in a connected series of articles, which I've compiled into white papers. You can find those under the corresponding menu bar tab.

If you find this information useful, you can receive *Knowledge Knuggets* directly via email by signing up for my mailing list (use the handy button in the sidebar to join).
